

Name: _____

Date: _____

1. Noah splits a tortilla into 2 equal pieces. These pieces are called ____

fourths

unequal parts

halves

wholes

2. A rectangle split into 4 equal parts shows ____ (halves or fourths)

3. A pizza is cut into 4 equal parts. What is ONE of the parts called?

one fourth

one half

one whole

one third

4. A square is split into 2 equal pieces. These pieces are called ____

fourths

unequal parts

halves

wholes

5. A triangle split into 2 equal parts shows ____ (halves or fourths)

6. Ria splits a pizza into 4 equal pieces. These pieces are called ____

fourths

thirds

halves

unequal parts

7. A circle split into 2 equal parts shows ____ (halves or fourths)

8. Ivy cuts a paper square into 2 equal parts and Kai cuts a SAME-size paper square into 4 equal parts. Whose pieces are SMALLER?

Ivy's (cut into 2 parts)

the pieces are the same size

Kai's (cut into 4 parts)

9. Ava splits a sandwich into 2 equal pieces. These pieces are called ____

halves

unequal parts

fourths

wholes

10. To make halves of a apple, into how many equal parts do you cut it?

2

4

1

3

11. A cake cut into 4 equal parts shows ____ (halves or fourths)

12. A tortilla is cut into 2 equal parts. What is ONE of the parts called?

one third

one fourth

one half

one whole

13. A pie is cut so every piece is the SAME size. The pieces are ____

unequal parts

no parts

equal parts

14. Leo cuts a paper square into 2 equal parts and Mia cuts a SAME-size paper square into 4 equal parts. Whose pieces are SMALLER?

Leo's (cut into 2 parts)

the pieces are the same size

Mia's (cut into 4 parts)

15. Leo splits a sandwich into 4 equal pieces. These pieces are called ____

unequal parts

fourths

thirds

halves

16. Ava cuts an orange into HALVES. How many equal parts is that?

4

2

1

3

17. To make quarters of a cake, into how many equal parts do you cut it?

8

3

4

2

18. Ria cuts a sandwich into 4 equal parts. These are called ____ (halves or fourths)

Answer Key

1. **halves** 2 equal parts are halves.
2. **fourths** 4 equal parts are called fourths.
3. **one fourth** One of 4 equal parts is one fourth.
4. **halves** 2 equal parts are halves.
5. **halves** 2 equal parts are called halves.
6. **fourths** 4 equal parts are fourths.
7. **halves** 2 equal parts are called halves.
8. **Kai's (cut into 4 parts)** More equal parts means each piece is smaller, so fourths are smaller than halves.
9. **halves** 2 equal parts are halves.
10. **2** Halves means a whole split into 2 equal parts.
11. **fourths** 4 equal parts are called fourths.
12. **one half** One of 2 equal parts is one half.
13. **equal parts** Same-size parts are equal parts.
14. **Mia's (cut into 4 parts)** More equal parts means each piece is smaller, so fourths are smaller than halves.
15. **fourths** 4 equal parts are fourths.
16. **2** Halves means a whole split into 2 equal parts.
17. **4** Fourths (quarters) means a whole split into 4 equal parts.
18. **fourths** 4 equal parts are called fourths.
